GENESYS GROUP ®

The most obvious feature of this E430B chassis is its depth 430mm only. In addition, its unique stylish mechanism and excellent ventilation as well as the dust-proof design are also the major characteristics. Its screwless top lid design can also reduce the system integration and maintenance time. The main structure made by 1.2mm SGCC ultra high strength sheet metal plate with no sharp corners and burrs. The front security door design also ensure data security and avoid improper burning discs or USB drive to copy data security vulnerabilities caused. This model can be installed in addition to the regular standard ATX 12"x9.6" motherboard, also compatible with the eATX of 12"x13" server motherboard, for a variety of system environments, the good price competition and the advantage of this chassis design, welcome worldwide distribution.
