

MICRO-102B

Black MicroATX desktop-minitower-wallmount chassis

The biggest feature of this design is a multi-functional architecture which is suitable for small and medium-sized workstation use. The MiniTower as vertical installation mode is also applicable, also the wallmount mode is suitable for industrial control and even NVR monitoring system (wallmount kit is option). Drive space allows maximum one 2.5" and one 3.5" hard drive inside. Rugged 1.0mm SGCC sheet metal as durable strength of the mechanism. In addition, the product is also standard equipped with quick removable dust filter device that effectively prevent dust into the system inside. Expansion card function is also very powerful to support double-layer thickness of GPU card installation, welcome world-wide distribution.
